We are not this season issuing a new full sized Spring Catalogue but will be pleased to forward a copy of our 1943 list to anyone desiring the same. Prices are little changed. We are listing here a few specialties and novelties which we are carrying.

War conditions with very severe labor shortages, gas rationing and other drawbacks are felt by all of us, but as a great many people are still desirous of cultivating flowers as well as vegetables we are going to do our best to carry on, and supply needs of all kinds as in the past, but cannot promise as prompt shipments as in former years.

We will make deliveries whenever possible and forward other orders by freight, express, or parcel post as in former years and hope customers whenever possible will assist by calling for whatever we carry that they are in need of.

Having had 40 years' experience in starting and directing Home and School Garden movements and giving lectures on Food Production in scores of communities in New England and outside of it. Having served for some years as chairman of both the Fruit and Vegetable Committees of the Massachusetts Horticultural Society as well as being a large exhibitor of both, we have the necessary practical knowledge to furnish advice to those desiring it on these and other Horticultural matters. Call up or write for free advice on any Food Production or other Horticultural subject.

VEGETABLE PLANTS

We are again carrying a good selection of the seed, the hardier ones like Cabbages, Cauliflower and Lettuce are ready early in April as they are not injured by light freezings, Tomatoes, Peppers, Egg Plants and other tender varieties are better not planted until May 20 and a little later still makes for greater safety.

TOMATOES

This year we can furnish the following varieties of this very important vegetable.

Master Marglobe, the best all round variety, Prichard, Bonnie Best Improved, Rutgers, Beefsteak, and Golden Perfection.

Extra fine plants in flats, 65 cents per doz. Strong plants staked in pots with fruits setting, give very early crops, \$3.00, doz. Last season our supply of these strong potted plants fell short of the demand, this season we are better prepared.

EGG PLANTS and PEPPERS — Better planted a little later than Tomatoes. 60 cents doz.

CABBAGE — Early Improved Jersey Wakefield and Golden Acre. 50 cents, doz.

CAULIFLOWER — Early Erfurt (much the best for an early crop) and Snowball. 60 cents, doz.

Other vegetable plants include: May King, Big Boston and Iceberg type Lettuce; Italian Broccoli; Scotch Kale; Onions; Leeks and Celery.

CULINARY, SWEET and other HERBS

We have a good selection of these including Basil, Borage, Parsley, Chervil, Tarragon, Mints in variety, English Thyme, Dill, Fennel, Rosemary, Sage, Sweet Marporam, Savory, and a few other varieties. Care must be taken in planting Herbs in the garden as many kinds often recommended, are coarse growers and some allowed to run to seed become pestilential weeds.

Additional to the regulation Herbs, we have a number of varieties of Scented Leaved Geraniums as well as Lemon Verbenas — strong plants, 30 cents each, \$3.00 per doz.

LILIUMS FOR SPRING PLANTINGS

Fall is by far the best season for planting all varieties of Hardy Lilies, but a few varieties planted early in Spring will give good results, blooming a little later than Fall plantings and thus extending the flowering season. We carry a large variety of Lilies, a complete list of which will appear in our Fall bulb catalogue ready about September 1.

The following Hardy Lilies can be successfully spring planted, preferably as soon as frost has left the ground and it is workable.

AURELIANENSE — Seedlings of this beautiful French hybrid lily give in August a fine range of colorings running from light orange to ivory white mainly trumpet or semi-trumpet shaped. Unusually vigorous like one of its parents (Henryi). A splendid hybrid, \$1.00-\$2.00 each.

CENTIFOLIUM — A glorious trumpet lily larger than regale and blooming a few days later. \$1.00-\$2.00 each.

FORMOSANUM PRICEI — This is the early blooming form of this fine lily, is much dwarfer than the late form and blooms about July 15. Extra fine bulbs, 50 cents each, \$5.00 doz.

FORMOSANUM LATE GIANT WHITE — Does not flower until late August. Tall grower and carries larger flowers than regale. Plant six inches deep. 40 cents each, \$4.00 doz.

HENRYI — One of the most dependable of all lilies. Blooms in late July. We have a fair supply of extra big bulbs, \$1.00 each, \$10.00 doz.

MAXIMOWICZII — A pleasing August bloomer, more graceful than Tigrinum, 50 cents each, \$5.00 doz.

PRINCEPS — A fine hybrid between Regale and Sargentiae, .75-\$1.00 each.

REGALE — This is known to virtually all lily growers, even beginners. We have a nice lot of excellent bulbs. The larger bulbs are extra fine, .50-.75-\$1.00 each, \$5.00-\$8.00-\$10.00 doz.

SHUKSAN — The finest of Dr. Griffiths hybrids. Rich yellow recurving flowers spotted brown. .75-\$1.00 each, \$8.00-\$10.00 doz.

SUTCHUENENSE — This is an unspotted form of Willmottiae. Very graceful with recurving orange red flowers in Mid-July. .75 each, \$8.00 doz.

TENUIFOLIUM — The Siberian Coral Lily has rich coral red recurving flowers ahead of all other lilies in June. 30 cents each, \$3.00 doz.

TIGRINUM SPLENDENS — An excellent form of the Tiger Lily. 30 cents each, \$3.00 doz.

UMBELLATUM GRANDIFLORUM — An excellent robust form of this lily. 35 cents each, \$4.00 doz.

WILLMOTTIAE — Brilliant orange red recurving flowers in early July. Very dependable. 50-75 cents each, \$5.00-\$7.50 doz.

Additional to the foregoing we have a few other varieties available but the great bulk are better fall planted.

LILIUM SEEDS

We can supply seeds of over 40 varieties of Lilies. A collection of 6 varieties of easy germination post free for \$1.50. Collection of 12 varieties for \$3.00. Liliun seeds can be sown in both spring and fall but will germinate very poorly if sown during the warm months of the year.

MISCELLANEOUS SUMMER FLOWERING BULBS

TUBEROUS ROOTED BEGONIAS — Both Double Camellia flowered and single. Either mixed or in these separate colors: White, Yellow, Orange, Scarlet, Rose, Salmon and Crimson. Excellent tubers of the best size, 35 cents each, \$4.00 per doz. Fine mixtures of all colors at same prices.

GLOXINIAS

Upright flowering type only, in five distinct colors: Scarlet, Purple, Spotted, Rose Bordered, White and Scarlet Bordered. 50 cents each, \$7.00 doz. Supplies this year are quite limited.

HYMENOCALLIS (ISMENES)

Popularly known as "Peruvian Daffodils." Plant outdoors when weather has become really hot and cover 3 inches. Extra large bulbs, 60 cents each, \$6.00 doz. Medium, 40 cents each, \$4.00 doz.

TUBEROSES

For early flowering start indoors and plant out in early June. For later flowers plant outdoors in June. **DOUBLE MEXICAN** — This variety is scarce at present, \$2.00 doz.

SINGLE PEARL — A very free bloomer. Several spikes to a bulb, \$1.25 doz.

ZEPHYRANTHES

Popularly known as "Fairy Lilies." Pure White, or Pink, \$1.25 doz.

GALTONIA

Formerly known as Hyacinthus Candicans, "Giant Summer Snowdrop," \$2.00 doz.

GLADIOLI

NAMED VARIETIES in Pink, Salmon, Scarlet, Blue, Lavender, Pure White, Yellow, Orange and Mixed Colors. Best quality bulbs, \$1.25 doz., \$9.00 per 100.

LYCORIS SQUAMIGERS, also called Amaryllis Halli. Flowers in late August. Pant 6-8 inches deep in partial shade for best results. Spikes rise to height of 24-30 inches, flowers are Lavender, Pink and fragrant. We have fine stocks of this lovely bulbous plant. \$1.00 each, \$10.00 per doz.

HARDY CHRYSANTHEMUMS

We have a fine selection of these showy fall flowering plants including the Dwarf Cushion section (often misnamed "Azaleamums") as well as the Koreanum and other hybrids.

We heartily commend the following Novelties from Bristol Nurseries:

APRICOT GLOW — Color Apricot. Flowering by mid-August, height 18 inches, very compact, gives a spread of 24-30 inches, very outstanding, fully double.

FIREGLOW — Semi-double, brilliant Oriental Red, starts blooming in early September. Shapely erect habit with 24-inch spread.

MAGNOLIA — A Nipponicum hybrid flowering by mid September, stocky habit, height 24 inches. Fully double, color creamy pink diffused yellow, large 4-inch blooms suggesting Magnolias.

PINK RADIANCE — Height 30 inches. Great long stemmed branching sprays of double, soft, pink flowers smother the plants. In full bloom by Sept. 24. Vigorous, beautiful, thrilling.

Prices of above 4 novelties, 75 cents each, 3 for \$2.00, \$7.50 per doz. Set of 4 novelties for \$2.50.

In the way of standard varieties we have the Cushion section in Red, White, Bronz, Yellow, Pink, and other colors, 30 cents each, \$3.50 per doz.

In other varieties we have Apollo, Burgundy, Daphne, Dean Kay, Harbor Lights, Pale Moon, Jean Treadway, Milky Way, Lavender Lady, Mandalay, R. Marion Hatton, and several other varieties, 35 cents each, \$4.00 doz.

Collection of 12 varieties postpaid for \$4.00. We also have some 1944 novelties 50-75 cents each. List of chrysanthemums mailed on request.

LARGE FLOWERED CLEMATIS

We carry a very good selection of these lovely hardy climbers in pots which permit of their being planted over a long season. They prefer half shade, a summer mulch and must have strings or wires to cling to. Plants are all on their own roots and will not die off like those which are grafted.

ROSES

Supplies of the "Queen of Flowers" are very light this season, about one-fourth of normal with many varieties virtually out "for the duration." There are the usual numbers of highly boosted novelties, few of which will survive more than a year or two. We have reduced on varieties carried but these will be found to contain a very good selection of tested and tried kinds. Due to greatly increased costs of everything we have been obliged to make moderate advances in prices.

Copies will be forwarded on application.

**MASSACHUSETTS HORTICULTURAL SOCIETY**

This is the only Horticultural Society in the United States which is functioning during World War II, just as it did during the Civil War when it held exhibitions of Fruits, Flowers and Vegetables WEEKLY during the entire war period. During 1945 the big Spring Exhibition in Horticultural Hall from March 10-17 will be the only major Spring exhibition to be held in the United States. This will be followed by later exhibitions for Iris, Peonies and other Seasonable Flowers — Lilies, Gladioli, Dahlias. Exhibits of Childrens Gardens, Victory Garden Products, and a November exhibition of Chrysanthemums and other seasonable material. For information about any of these shows apply to Arno H. Nehrling, Horticultural Hall, Boston, Mass. If you are not already a member of this old but progressive organization the sum of \$3.00 will enlist you as an annual member. This will entitle you to free admission to all exhibitions, will bring you the magazine Horticulture twice monthly, the use of books from the finest horticultural library in the New World and other Privileges.

**GARDNERS' AND FLORISTS' CLUB OF BOSTON**

This is one of the oldest, strongest and most active organizations of its kind in America. Meetings are held each month in the year, except July and August, at Horticultural Hall at 8 p.m. Membership includes many ladies and anyone interested in Horticulture can join. Dues are \$3.50 per annum. At each meeting there are lectures with discussions, exhibits of Plants, Flowers, Fruits and Vegetables, including floral arrangements. Field days are held several times yearly and a Question Box at each meeting is made use of. For additional information apply to Sydney G. Kimpton, Secretary, Hingham, Mass.
